# PRESS RELEASE

For immediate release:

Primary Headline: VT Miltope Secures Victory at APEX Awards  
Secondary Headline: Service Elevated

On September 10<sup>th</sup>, 2019, VT Miltope was honored with the award for Best Inflight Connectivity Innovation at the APEX Expo held in Los Angeles, California. APEX (Airline Passenger Experience Association), is a network of the world's leading airlines, suppliers and related companies committed to elevating the level of the airline passenger experience.

VT Miltope achieved this award by merging technologies from RazorSecure and Galgus and developed wireless cabin networks that keep up with ever evolving cyber threats. Using machine learning, the software based solution detects anomalies in network behavior patterns and becomes smarter with every iteration.

VT Miltope's President and CEO, Jack Haley, said this about the team's achievement, "This is a fantastic achievement by the entire team and demonstrates the tremendous capabilities and capacity of Miltope's Wireless Access Point. It also demonstrates that APEX and the industry recognize the pressing need for cybersecurity."

VT Miltope is a leading manufacturer of rugged computers, servers and network peripheral equipment solutions for military, industrial, and commercial aviation applications that call for reliable performance under demanding environmental conditions. With offices nationwide and headquartered in Huntsville, Alabama, VT Miltope's mission is to provide the highest computer standard of rugged and reliability-under-pressure.
