Miltope Perimeter Security Systems Appoints Director of Business Development USA

Huntsville, AL, September 10, 2020 – Miltope, a company of ST Engineering North America, today announced that Wendy Young joined its leadership team as the new Director of Business Development Perimeter Intrusion Detection Systems. Wendy’s primary responsibilities include strengthening Miltope position as a global leader of physical security solutions with a focus on addressing the specific needs of key vertical markets.

“Miltope is in an exciting period of growth and I am looking forward to working with our team of security experts to build on this success.” Said Ms. Young. “The opening of our new perimeter security sales and technical office for the US market is our commitment to supporting and serving our customers”. Ms. Young has over 18 years of successful experience of high-end sales in vertical markets. Her success with perimeter intrusion detection systems led to significant growth in revenue for several companies in the US market. Developed strategic accounts building relationships with end users, security integrators and consultants in the high end perimeter security applications for utilities, petrochemical, government and financial institutions.

Miltope is a leading manufacturer of perimeter intrusion detection systems, rugged computers, tablets, servers, and network peripheral equipment solutions for military, industrial, and commercial aviation applications that call for reliable performance under demanding environmental conditions. Headquartered in Huntsville, Alabama with production in Hope Hull, Alabama and offices across the United States and Europe, Miltope’s mission is to provide the highest computer standard of rugged reliability.
